SUMMARY

Frontend Developer with approximately 3 years of experience building responsive and scalable web applications using React.js, Next.js, TypeScript, and JavaScript. Skilled in developing reusable UI components, integrating REST APIs, managing state with Redux, and creating modern interfaces with Tailwind CSS and Bootstrap. Familiar with AI-powered frontend features, OpenAI API integration, prompt engineering, and technical documentation, with experience using Git, GitHub, Postman, and Figma.

TECHNICAL SKILLS

Frontend	React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
State & Data	Redux, REST APIs, Axios
UI & Styling	Tailwind CSS, Bootstrap, Responsive Design, Framer Motion
Gen AI	Prompt Engineering, OpenAI API Integration, AI-Powered UI Development, GitHub Copilot
Documentation	Microsoft Word, Microsoft Excel, PowerPoint, Technical Documentation
Tools	Git, GitHub, Postman, VS Code, Figma

PROFESSIONAL EXPERIENCE

Freelance Frontend Developer Self-Employed	Jan 2026 – Present <i>Remote</i>
--	-------------------------------------

- Developed and deployed modern web applications using React.js, Next.js, TypeScript, and Tailwind CSS.
- Integrated REST APIs and third-party services for authentication, payments, and data management.
- Built AI-powered features using OpenAI APIs, including intelligent content generation, chat assistants, and automation workflows.
- Implemented dynamic dashboards, reusable component libraries, and responsive user interfaces.
- Worked with React Hook Form, Zod, Redux Toolkit, and TanStack Query for scalable frontend architecture.
- Optimized application performance through code splitting, lazy loading, and SEO best practices in Next.js.
- Collaborated directly with clients to gather requirements, deliver projects, and provide ongoing technical support.

Frontend Developer RedSecOps Cyber India Pvt Ltd	Nov 2023 – Jan 2026 <i>Hyderabad</i>
--	---

- Developed scalable web applications using React.js and Next.js.
- Built reusable UI components, improving development efficiency.
- Integrated REST APIs and managed application state efficiently.
- Improved UI performance and responsiveness across multiple devices.
- Worked with Node.js, Express.js, and MongoDB for full-stack feature development.
- Collaborated with cross-functional teams to deliver production-ready solutions.

Frontend Developer Tech Curve AI	Mar 2023 – Oct 2023 <i>Remote</i>
--	--------------------------------------

- Developed responsive user interfaces using React.js.
- Managed application state using Redux and integrated backend APIs.
- Enhanced application performance and user experience through optimization techniques.

KEY PROJECTS

Curvv AI

curvv-ai.com

- Developed and maintained an AI-powered platform focused on workflow automation and user engagement.
- Built scalable and responsive user interfaces using React.js, Next.js, TypeScript, and Tailwind CSS.
- Integrated AI-driven features, secure authentication, and dynamic dashboard functionalities.
- Implemented REST API integrations for real-time data management and seamless user experiences.
- Optimized application performance and ensured cross-device compatibility.

SSN Portal

ssn.curvv-ai.com

- Developed a modern web portal using Next.js, React.js, TypeScript, and Tailwind CSS.
- Built reusable and responsive UI components for user onboarding and management workflows.
- Implemented form validation using React Hook Form and Zod for improved data accuracy.
- Integrated backend APIs for dynamic data rendering and real-time user interactions.
- Enhanced user experience through optimized performance and mobile-friendly design.

MySkillWallet.ai

myskillwallet.ai

- Developed responsive and scalable user interfaces using React.js, Next.js, TypeScript, and Tailwind CSS.
- Built reusable UI components for dashboards, skill management, and profile workflows.
- Integrated REST APIs using Axios for dynamic data rendering and seamless user experience.
- Implemented AI-powered chat interfaces and interactive frontend features.
- Optimized application performance through code splitting, lazy loading, and efficient state management with Redux.
- Collaborated with backend developers to integrate APIs and deliver scalable frontend solutions.

Troven

troven.ai

- Developed responsive dashboards and assessment modules using React.js and Next.js.
- Built interactive whiteboard and coding interfaces with real-time UI updates.
- Integrated REST APIs and managed asynchronous data using Axios and React hooks.
- Created reusable components and optimized application performance for a seamless user experience.
- Worked closely with UI/UX designers and backend teams to deliver scalable frontend features.

Conqt

conqt.com

- Developed responsive procurement and vendor management interfaces using React.js and Tailwind CSS.
- Integrated REST APIs to manage products, vendors, and procurement workflows.
- Built reusable UI components to improve development efficiency and maintainability.
- Enhanced application responsiveness, accessibility, and cross-browser compatibility.
- Collaborated with cross-functional teams to deliver high-quality frontend solutions.

EDUCATION

Bachelor of Technology (CSE)

Bansal Institute of Engineering Technology, Lucknow

CGPA: 6.76 / 10

2019 – 2023
